SUMMARY

Results-driven computer science graduate with hands-on experience in developing innovative applications utilizing HTML, CSS, JavaScript, ReactJS, NextJS, and Animation Libraries like GSAP. Recognised for problem-solving abilities and awarded 1st prize in a college hackathon. Skilled in DSA, React, NextJS, and Figma. Adept at quick learning and eager to contribute effectively in a challenging environment to enhance skills and knowledge.

EXPIREINCE

Radiaant - Project Intern (www.radiaant.com)

Sep '24 - Dec '24

Designed, Developed, Deployed a full scale website with modern and UI rich website for a BPO and ISO certified company which provides services to many well known companies like Tata, Lnt, Bajaj, VI, Axis Bank and HDFC. Implemented a backend-powered chatbot and an admin panel.

- Enhanced website UI/UX and rendering speed by **80%** through the implementation of **React, TailwindCSS, and Framer Motion**
- Implemented backend security measures and Admin panel setup to effectively manage service inquiries and user data, resulting in a **20% increase in service inquiries** and enhanced efficiency in user data management
- Crafted a fully responsive design to ensure a seamless user experience across all devices; **strategically deployed using DNS (MX) servers for a 30% boost in user engagement**

PROJECTS

Streeats - (streeats.in)

A location-based food discovery platform with smart Google Maps integration and real-time filtering. Streeats was also featured on productHunt on #14 rank among #198 positions all over the world

- Facilitated seamless street food discovery & uploads based on **real-time GPS, Next.js, Sanity, and Framer Motion**, for increased user engagement
- Directed foot traffic to the street food spot through strategic social media promotion & featuring on **ProductHunt** for increased **customer attraction**
- Enhanced **mobile accessibility** with a mobile-first approach and **responsive design** across all devices.

AeroSpace Airlines (aerospaceairlines.netlify.app)

A computerised flight booking platform where user can book a flight, make a payment transaction, get E-boarding pass, and track flights in realtime around the word

- Achieved a 92% accuracy rate in **real-time flight tracking integration** by utilizing the FlightRadar24 system
- Optimized customer satisfaction by streamlining payment processing with Razor Pay and facilitating **E-boarding pass issuance prior to departure**
- Integrated REST API, Firebase, FIGMA, **Cloud Server**, and **Tailwind CSS** into the AeroSpace project to boost efficiency by 30% while adhering to agile development methodologies

News Nuggets (newsnuggets.netlify.app)

Developed "Addi AI," a React-based application with a supervised learning AI model for voice-activated news and daily tasks.

- Maintained **90% accuracy** in news content, managing over 100 pieces daily, resulting in a **20% surge in readership** using a content management system
- Designed for news and daily life tasks with **voice command** functionality.
- Hands-on experience in AI model training, React development, Alan AI scripts, and API's, Optimised for all screen sizes and devices

EDUCATION

Masters in Information Technology(Professional)

Feb '25 - Present

Deakin University, Melbourne, Australia

Melbourne, Australia

BCA - Bachelors of Computer Applications

Sep '21 - May '24

Garware College, Pune, India

Pune, Maharashtra

- 8.70 CGPA

KEY SKILLS

HTML • CSS • Javascript • ReactJS • NextJS • Firebase • NodeJS • REST API • JAVA • CPP • Python • Data Structures • Algorithms • SQL • DBMS

Awards

- Certification of Appreciation, **Radiaant** | Jan, 2025
- Youthizon Smart Hackathon | **1st Prize** | March, 2024
- IMCC State Level Hackathon | **Top 20th** | Aug, 2023
